New Dacia Logan

It has
so much
to offer

Even more space, design, accessibility, well-being and the same remarkable value for money: this is the new Dacia Logan: Naturally generous, it is exceptionally roomy with 5 full comfortable seats and a spacious trunk. Easily accommodating 3 adults, the exceptional dimensions of the passenger compartment around the rear seats, both in width and height, give freedom of movement synonymous with well-being. To carry the whole family's luggage, the trunk of the Dacia Logan has the largest volume in its class with 510 Litres! Sturdy, Dacia Logan has been designed to stand up to the most extreme road and climatic conditions. Thanks to its high levels of reliability and safety, Dacia offers you a 3-year warranty. Dacia Logan, still more to amaze you.

Design, quality, ergonomics: the dashboard of the Dacia Logan contributes to driving comfort.

New front grill, new bumper, new headlamps: the front of the Dacia Logan brings together strength and modernity.

The rear of the Dacia Logan has been redesigned and integrates the new lights and bumper perfectly.

The new design of the rear-view mirrors gives optimal rear vision for maximum comfort and safety.

Dacia Logan has a more contemporary style, like its ergonomic door handles and chrome finish.

Dacia Logan is fitted with ABS and Emergency Brake Assist (AFU) as standard for optimized stability and reduced stopping distances.

The instrument cluster is modern in design, dynamic and easy to read. Moreover, thanks to the 5 functions of the on-board computer (according to version), you can also check your fuel consumption.
