

Dacia Sandero

Style space and sturdiness finally within reach...

What is the Dacia Sandero hiding behind its modern and dynamic silhouette? A spacious interior. The rear seat, with room for 3 adults, can be folded down and, depending on the version, can be split 1/3-2/3 in order to increase the load space according to your needs. Dacia Sandero has no shortage of space! Its 320-litre boot is among the largest in its class. The rugged and reliable, Dacia Sandero is designed to withstand the most demanding road and weather conditions. Its range of Renault engines meets the highest reliability standards for carefree driving. Dacia Sandero: simply intelligent.

A style that leaves its mark

Dacia Sandero: a style that leaves its mark. Its contoured front lamps highlight the expressive and dynamic design of its front end. A little lower down, the body coloured bumper is equipped with fog lamps* and a wide air intake grill which lend it a sporty look. The confidently attractive Dacia Sandero style strikes the balance between energy and sturdiness. Its safety-designed sides extend into an inverted wave-shaped body, a mark of precise engineering.

* According to version

Travel in total confidence

Dacia Sandero boasts top-level reliability.

Whatever the terrain and weather conditions you are driving in, you can always count on its endurance. Chosen for their sturdiness and their quality, the petrol engines guarantee reduced maintenance costs. Economical and ecological, the 1.4 LPG* and 1.6 Hiflex engines combine the performances and comfort of the traditional internal combustion engine with a great flexibility. Your safety: a priority. Benefiting from Renault's expertise, Dacia Sandero uses high-performance active and passive safety solutions which guarantee efficient protection. This is why Dacia offer you a 3-year warranty**. For travel in total confidence.

*Liquefied Petroleum Gas.

** 3-year warranty or 100,000 km, whichever comes first.

3-YEAR
or 100,000 km*
GARANTÉE

The Dacia Sandero uses a dCi diesel engine using proven Renault technologies offering a high level of service combined with low fuel consumption and reduced CO₂ emissions. The Sandero dCi ranks among the most economical vehicles on the market.

Particular care has been devoted to the Dacia Sandero's braking system. Standard equipment on the Dacia Sandero includes the latest generation Bosch 8.1 ABS system, the EBV electronic brake force distributor, and the emergency brake assist (new to the Dacia range), giving reduced stopping distances and excellent stability when braking in curves.

Dacia Sandero's three rear seats are equipped with head-rests and 3-point safety belts for maximum protection. The front seats have head-rests designed to reduce risks in the event of rear impact.

Dacia Sandero can have up to 4 airbags, depending on the version. The front seats may be equipped with side airbags (head and thorax).

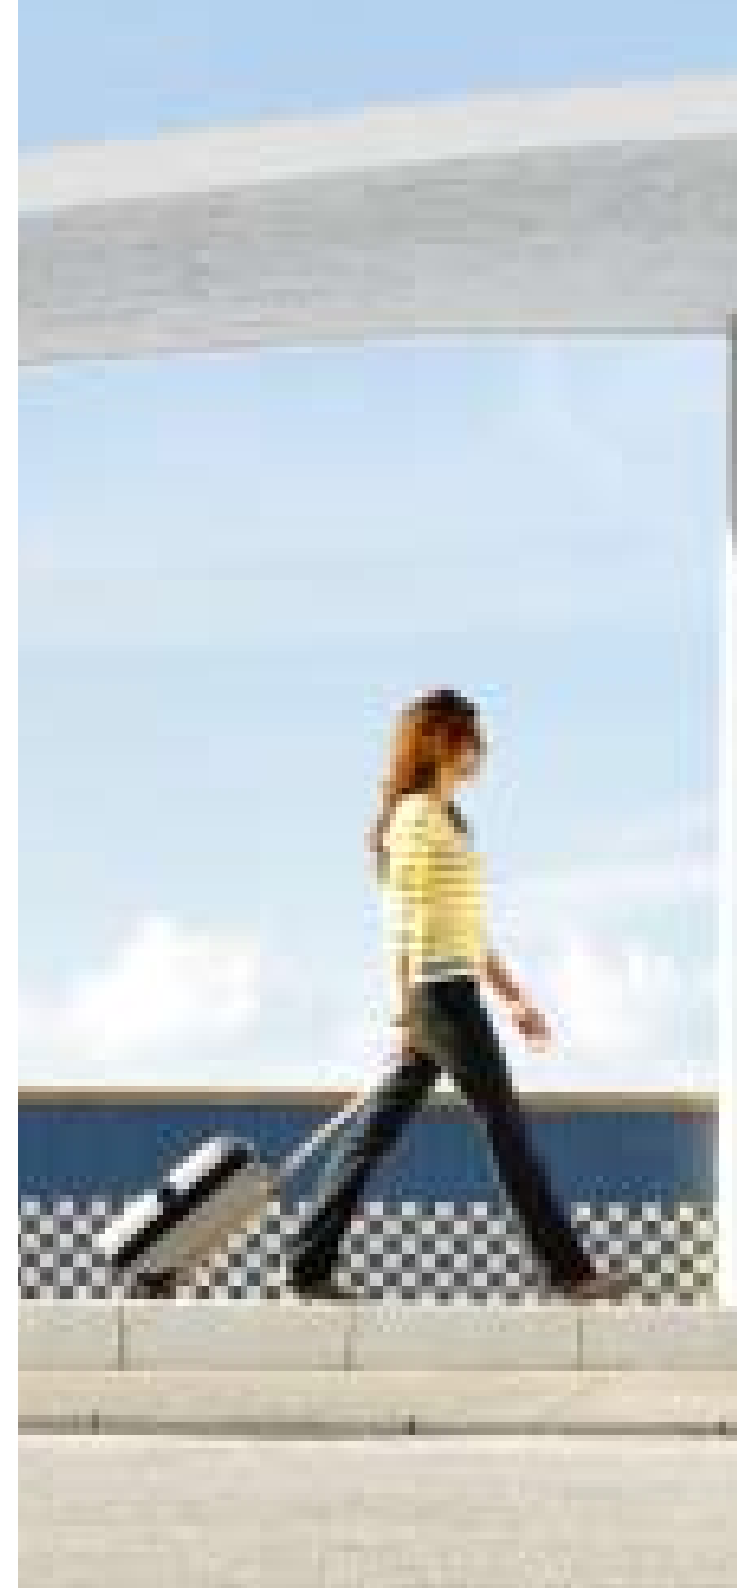

Welcome on board

Dacia Sandero offers a spacious interior. The drive station provides an exceptional field of vision, ergonomic controls and a height adjustable driver's seat*. Three adults can sit in the back, thanks to the especially generous dimensions of the passenger compartment, in height as well as width. Dacia Sandero is also highly adaptable: once folded, the rear seat frees up 1,200 litres of loading space! With its 320-litre volume, the boot offers a vast amount of storage space for luggage. All the passengers can take advantage of the comfort offered by the air-conditioning system*. Family and friends will always be welcome aboard!

(1) Petrol biofuel/GPL

Sandero  meets the following 3 criteria: CO₂ emissions less than 140 g/km or vehicle running on biofuel; vehicle produced in an ISO 14001-certified plant minimizing the impact on the environment; the overall plastic content of the vehicle to contain more than 5% recycled plastic.

With , the manufacturer is committed throughout the life cycle of the vehicle.

HiFLEX

HiFlex engines work equally well with E85 bio-ethanol and petrol. These sturdy and reliable motors benefit from the expertise of the Renault group and offer driving pleasure and performances equal to the 1.6L petrol (including at low revs). Environmentally friendly, bio-ethanol is a renewable and diverse energy source which limits energy dependency on fossil fuels. It offers up to 70% less CO₂ emissions throughout the life cycle of the fuel when compared to driving exclusively using petrol. In addition, Dacia HiFlex engines provide real savings both at the purchasing stage (tax advantages) and in use (competitive price of bio-ethanol fuel).

LPG

LPG* significantly reduces the emission of pollutants and helps in the fight against global warming thanks to its low CO₂ emissions. It is both ecological and economical. Available at more than 32,000 filling stations in Europe, it is currently the least expensive fuel on the market and offers considerable tax advantages. More flexible to drive, less frequent oil changes, longer engine life... it protects and preserves your vehicle while providing you with autonomy, versatility and driving pleasure.

*Liquefied Petroleum Gas.

Accessories

To find out the full range of Sandero accessories, pay your dealer a visit.

1. ROOF RAILS

Perfectly suited to the car's design, the integrated steel roof bars are easy to install and can be fitted with various roof storage accessories: ski, bike and roof racks...

2. SWAN NECK TOW BAR COUPLING

Designed for intensive use. The elegant design and the removable ball preserve your vehicle's aesthetics.

3. SPOILER

Add a sporting note to the design of your Sandero, ask for the Sport Spoiler.

4-5. SUV KITS

Opt for this kit, composed of a front central blade, fog lamp protection trims, fog grills and a stylish and sporty rear bumper, as well as side skirts for perfect balance. Available in: silver grey, body coloured or in a black grained version.

6. MADRIGAL FLOOR MAT

4-piece custom mat with rich velvet finish to protect the floor from wear and moisture in style. 100% compatible with the original dimensions - dark grey colour.

7. RUBBER FLOOR MAT

4-piece custom mat, especially adapted to the most demanding uses (mud, sand, snow, moisture).

8. DOOR SILLS

Ideal for stylish protection when climbing into your Sandero.

9. ARMREST

Angularity adjustable to adapt to your driving position, the central front armrest is also a handy storage space.

10. BOOT BIN WITH LID

Practical and clever, the boot bin with lid optimises the storage of objects. Its airtight compartment under the lid stays isolated from the rest of the boot.

11. BOOT FLOOR NET

Secures items on the boot floor, preventing them from moving about when travelling. It attaches to the original vehicle fasteners.

12. CHILD SEATS

The ISOFIX Duoplus model, reserved for children aged 9 months to 4 years, is forward-facing only. Its 5-point harness ensures your child is securely held in the seat. The seat is easy to install thanks to the ISOFIX hook locking system.

13. CARMINAT NOMADE

Say goodbye to cables, windscreen suction pads and a flat battery for the navigation system. Say hello to optimal integration and efficiency: map of Europe, standard TMC traffic info, and built-in database of fixed radar systems (with free updates). In addition, the top of the range version offers the large 4.3" screen and the Bluetooth® hands-free calls.

14. BLUETOOTH HANDSFREE KIT

This Parrot brand model is composed of an LCD screen with 2 built-in microphones and a portable cursor. It displays the caller's directory and identifier.

15. SONY GT 315 C CAR RADIO

This original-design car radio includes many features: CD player, MP3/WMA player, auxiliary input on the front panel.

Dacia

A car at this price? You must be joking!

NO, REALLY. At Dacia, we were the first to realise that it could be possible to build an attractive, safe and good quality yet inexpensive car. And something tells us we were right... The reliability and sturdiness of our models are now well-known. The latest additions to the Dacia range have caused a stir with their prestigious and distinguished designs. Furthermore, our models never lack space and can easily accommodate passengers and their luggage. This success is based on a simple observation: you can have a car you like and rely on without having to spend all your money on it.

PART OF THE RENAULT GROUP, Dacia uses technical solutions which have proved themselves to be efficient and reliable enabling them to offer a 3-year or 100,000 km warranty and low running costs. Proof of our commitment to the environment, we have developed the Dacia eco² signature. Vehicles in the Dacia range are manufactured in ISO 14 001 certified factories, are 85% recyclable and offer dCi engines which emit less than 140g de CO₂/km*. Because this is another of our convictions: being eco-friendly should not be down to price!

*With its 4x4 package, Dacia also offers a dCi 110 engine which provides better results in terms of CO₂ emissions with less than 150g de CO₂/km.
